INTERSTATE 93 BRIDGE WORK IN HOOKSETT AND MANCHESTER
REPAIRS TO VARIOUS BRIDGES WILL REQUIRE LANE CLOSURES

The New Hampshire Department of Transportation announces bridge repairs are scheduled to begin the week of April 26, 2004 on various northbound and southbound bridges on Interstate 93 in Hooksett and Manchester.

These bridge deck repairs are expected to take two weeks to complete. Two lanes of traffic will be maintained in each direction during daytime hours, with nighttime lane closures reducing traffic to one lane. Variable message boards will alert motorists to pending work. Warning signs, cones and uniformed officers will help guide motorists through the work zones. Some delays can be expected.

In case of inclement weather, work will be postponed until the following workday.
